Minutes of Buildings and Grounds Meeting

Present:

Don, Jack, Agata, Radek, Gina, Vassie, Cheryl and Ann

Sexton's Report

December was a quiet month since we did not have any snow. Bruce Schulz is plowing and doing a great job.

Radek installed a new board on the Parlor porch. Now it shows that in the spring, he will need to replace all of the boards. The lamppost is working now since he replaced an energy efficient light bulb with a regular light bulb.

Signs

Gina will install a sign letting folks know about the timer just outside the social hall for the outdoor lights on the new Social Hall board. The interior signs are still being worked on. Gina cleaned up and hung the Church Office sign. She will ask Kathy Fiske if she can help with the Welcome sign. The rest of the signs will be printed.

Decorating for Christmas

We had just the right amount of help. However, Vassie would like, in the future, to acknowledge all the work that goes into the Christmas decorations.

Old Business

Timber Tenders cut a tree that was leaning in the driveway. They did excellent work in that folks did not even realize it was removed. Jack sent a thank you note since this was done as a kindness to NUCS.

New Business

According to Jack, Best Practices indicates that we need a new chairperson. Gina has been nominated and approved by the committee. Thank you, Jack, for all of your years as chairperson.

Humidity Issues in the Social Hall and Nursery

We applied for and received a grant to look into this issue. An engineer has now been through the space and will give us suggestions. She will have a report out to us by next month's meeting.

Annual Meeting January 24th

Cheryl will put together the annual report, circulate it to all committee members and then send it on to Geraldine, after we all agree.

Next meeting of B&G will be on February 2 at 6:30 in the Social Hall.

Sincerely,

Cheryl Brush
