

Communications Committee – September 2nd

Neil Stannard, Dave Sullivan, Deborah Rice, Marcia Peterson present

Purpose of this committee was discussed. We decided that we facilitate people or committees in their use of the website.

Website connection to In Touch

Updated the donation methods to allow on line donations.

Geraldine can post items for In Touch. People just need to email her with the text office@northchapel.org.

It is easiest for her during her hours, which she posts each week in In Touch.

We discussed how the website is being used. Dave said that in his role at the library, he gets blamed when people don't hear about things. How do we encourage people to use the website as a resource? Should the website be listed in the order of service? During the service it should be mentioned that events are on the website. (This needs to be passed on to the Worship Comm.)

We will revisit the website to look at what is linked and how better to organize it.

What things are people looking for on the website? We can ask people what they have tried to find. Geraldine can help direct people.
