

## **RE Notes February & March 2016**

### **Sunday Feb 28**

K-3 & 4-6: 5 children w/ Ben and Murray

With a small but connected crew of kids and adults, we welcomed Winter out and Spring in with a spiritual exploration treasure hunt on the ArtisTree grounds. From the children, treasure is/can be: "whatever is important and meaningful to you... and you can find it anywhere, if you just take the time to look for it... together."

What a wonderful day! I look forward to more S.E. adventures in the warming months to come, both inside and out, together, wherever the road may lead, one day at a time. Ben

### **Sunday March 6**

K-3 2 Children w/Ariel

4-6: 2 children w/ Geraldine & CTWK

K-3: The kids and I watched "Koun and Her Water Buffalo". It's about a young Cambodian girl who's family makes a living by selling rice. They loved and wanted to watch more when it was over. We discussed how different life is in Cambodia compared to here. We also looked at pictures of the Life and Hope kids who live in the North Chapel house, and I think watching the video of Koun helped them understand what life can be like in Cambodia.

4-6: We spent time with the CTWK learning about their "Let It Grow Wild" Campaign, why they do it and what the money is raise for. The children then designed and created posters for the event.
